

- Home Screen

- The app

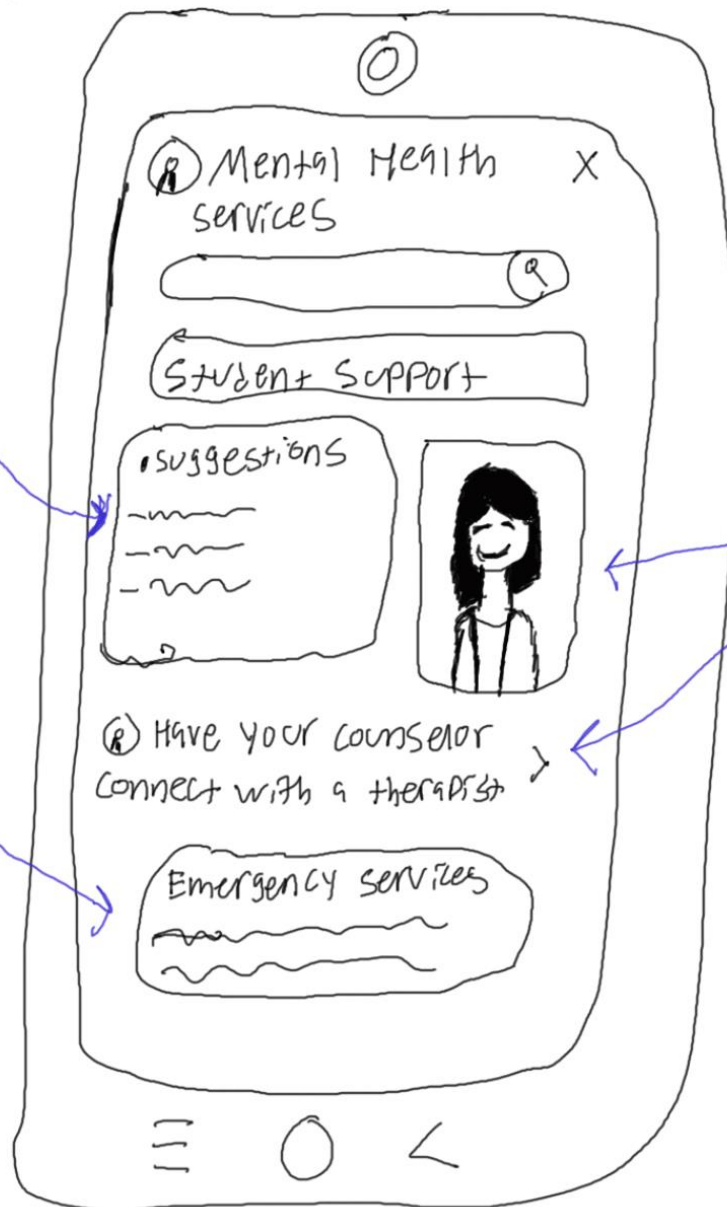

- Three tabs if you want to either connect with a counselor or therapist for any mental support.
- use AI to detect any signs of a potential school shooters.
- If you do report any suspicious behaviors anonymously

= The mental health services tab will let you connect with a counselor or therapist

- It will suggest suggestions to help with any mental problems you may have

- you can also call for an emergency if needed

— The second tab lets you use an AI to detect early warning signs of potential school shooters and alert authorities and school administrators

— The third tab lets you anonymously  
report any suspicious behavior or threats  
to the school administrators and authorities
