

## Problem Statement

Everyone's lives would be way much better if there was a way to prevent more school shoots from happening each year.

## What is the Problem?

In 2023, There were a total of 38 school shootings and this year in 2024, there were a total of 35 school shootings. It was a slight decrease, but it should be less than that. I think we need to find a way to make sure that there is no way for anyone to sneak in a gun or any weapon to school.

## Who is experiencing the problem?

People who are experiencing this problem the most is everyone in the United States. But it usually happens in the more southern areas in the US.
